PROJECTS

R(E)THRIFT | RE-THRIFT.HEROKUAPP.COM

Fully functional e-commerce site selling used goods

- Developed front-end components to allow users to edit personal information and update credentials
- Responsible for writing API routes responding to client requests, and retrieving results from the database
- Built using: Node.js, Express, React, and PostgreSQL

FITNESS TRACK.R | BIT.LY/FIT-TRACKR

Web app allowing users to create and catalog workout routines

- Created an intuitive interface allowing users to register for an account, create and edit workout routines, and add their own custom exercises
- Built using: React, Bootstrap CSS

EXPERIENCE

WAREHOUSE MANAGER

PCS FOR PEOPLE | SEP 2019 - PRESENT

- Distributing 900+ computers per month to low-income families, senior citizens, and other non-profits.
- Leading a team of 10-15 employees, interns, and volunteers in processing an average of 79,000 lb. of recycling monthly

REMOTE SUPPORT TECHNICIAN

LIVE CONSULTING | SEP 2016 - JAN 2017

- Resolved support tickets for over 120 small to medium-sized businesses.
- Diagnosed and solved various computer issues while working within Active Directory, Exchange, Office 365, and VMWare.

SUPPORT TECHNICIAN

VISUAL GRAPHIC SYSTEMS | OCT 2013 - JUL 2016

- Oversaw the maintenance of all internal IT equipment including workstations, printers, and servers
- Maintained positive customer relationships by providing technical support to 250+ stores using our products
- Developed a script to streamline the installation of our digital signage software, allowing us to ship 80+ units per week
